1. DESCRIPTION OF BUSINESS

Orbit Garant Drilling Inc. (the «Company»), amalgamated under the *Canada Business Company Act*, mainly operates a surface and underground diamond drilling business. The Company has operations in Canada, United States, Central and South America and West Africa.

The Company's head office is located at 3200, boul. Jean-Jacques Cossette, Val-d'Or (Québec), Canada. The Company holds interests in several entities, including the percentage of voting rights in its principal subsidiaries as follows:

	% of voting rights
Services de forage Orbit Garant Inc.	100%
9116-9300 Québec inc.	100%
Orbit Garant Ontario Inc.	100%
Drift Exploration Drilling Inc.	100%
Drift de Mexico SA de CV	100%
Lantech Drilling Services Inc.	100%
Lantech Liberia Limited	100%
Perforación Orbit Garant Chile SpA	100%

2. BASIS OF PRESENTATION

Basis of Presentation

These interim condensed consolidated financial statements have been prepared in accordance with IAS 34, *Interim Financial Reporting*, («IAS 34»). The IFRS accounting policies that are set out in Note 3 to the Company's annual audited consolidated statements for the year ended June 30, 2013 were consistently applied to all periods presented, except for accounting policies affected by standards and interpretations adopted on July 1, 2013, as described in Note 3 below.

The preparation of financial statements in conformity with IAS 34 requires the use of certain critical accounting estimates. It also requires Management to exercise its judgment in the process of applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant are disclosed in Note 4 in the Company's annual audited consolidated financial statements for the year ended June 30, 2013. They remained unchanged for the three and six-month periods ended December 31, 2013.

These interim condensed consolidated financial statements have been prepared on a historical cost basis, except for the contingent liabilities, which have been measured at fair value and are presented in Canadian dollars, which is the currency of the primary economic environment in which the Company and its subsidiaries operate («functional currency»). All values are rounded to the nearest thousand dollars, except where otherwise indicated.

These interim condensed consolidated financial statements do not include all of the information required for annual financial statements and should be read in conjunction with the Company's 2013 annual audited consolidated financial statements.

These interim condensed consolidated financial statements were approved for issue by the Board of Directors of Orbit Garant Drilling Inc. on February 11, 2014.

2. BASIS OF PRESENTATION (continued)

Principles of Consolidation

The interim condensed consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company. A subsidiary is an entity controlled by the Company. An investor controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee, independently of its percentage of participation. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when the Company controls another entity.

Income and expenses of subsidiaries acquired or disposed of during the year are included in the consolidated statement of earnings from the effective date of acquisition to the effective date of disposal, as appropriate. Intercompany transactions and balances are eliminated on consolidation.

3. STANDARDS AND INTERPRETATIONS ADOPTED

The following standards and amendments to existing standards have been adopted by the Company on July 1, 2013:

IFRS 10 – Consolidated Financial Statements
IFRS 10 replaces SIC-12 *Consolidation – Special Purpose Entities* and parts of IAS 27 *Consolidated and Separate Financial Statements* and provides additional guidance regarding the concept of control as the determining factor in whether an entity should be included within the consolidated financial statements of the parent company.

IFRS 11 – Joint Arrangements
IFRS 11 replaces IAS 31, *Interests in Joint Ventures*, with guidance that focuses on the rights and obligations of the arrangement, rather than its legal form. It also withdraws the option to proportionately consolidate an entity's interests in joint ventures. The new standard requires that such interests be recognized using the equity method.

IFRS 12 – Disclosure of Interests in Other Entities
IFRS 12 is a new and comprehensive standard on disclosure requirements for all forms of interests in other entities, including joint arrangements, associates, special purpose entities and other off balance sheet vehicles.

IFRS 13 – Fair Value Measurements
IFRS 13 defines fair value, requires the disclosure of estimates at fair value and provides guidance on measuring fair value when required or permitted to do so according to the IFRS standards.

IFRS 7 - Financial instruments - Disclosure
IFRS 7 is amended to include obligations of qualitative and quantitative information related to gross and net amounts recognized in the financial statements that, a) are subject to an offset in the Statement of financial position and b) are subject to a master netting agreement or similar agreement enforceable even if they are not netted in the Statement of financial position.

IAS 19 - Employee benefits
IAS 19 is amended to eliminate the application of the so-called «corridor» method and has the effect of deferring the recognition of gains and losses to simplify the presentation of changes in assets and liabilities arising from defined benefit plans and improve disclosures for defined benefit plans.

IAS 27 - Separate Financial Statements and IAS 28 - Investments in Associates and Joint Ventures
IAS 27 and IAS 28 are amended and renamed to be consistent with the publication of IFRS 10, IFRS 11 and IFRS 12.

3. STANDARDS AND INTERPRETATIONS ADOPTED (continued)

The International Accounting Standards Board issued a collection of amendments to IFRS as follows :

IFRS 1, *First-time adoption of IFRS* («IFRS 1») related to repeated application of IFRS 1 and to borrowing costs.

IAS 1, *Presentation of Financial Statements*, related to clarification of the requirements for comparative information.

IAS 16, P*roperty, Plant and Equipment*, related to classification of servicing equipment.

IAS 32, *Financial Instruments* : Presentation, related to tax effect of distribution to holders of equity instruments.

IAS 34, *Interim Financial Reporting*, related to interim financial reporting and segment information for total assets and liabilities.

The standards and amendments listed above did not have any significant impact on the Company's financial statements.

4. RECENT ACCOUNTING PRONOUNCEMENT

The Company has not early adopted the following new standards and adoption impacts on the consolidated financial statements have not yet been determined:

IFRS 9 – Financial Instruments

IFRS 9 simplifies the measurement and classification for financial assets by reducing the number of measurement categories and removing complex rule-driven embedded derivative guidance in IAS 39, Financial Instruments: Recognition and Measurement. The new standard also provides for a fair value option in the designation of non-derivative financial instruments and its related classification and measurement. IFRS 9 is effective from periods beginning January 1, 2015 with early adoption permitted. However, the International Accounting Standards Board tentatively decided to defer the mandatory effective date and to leave such date open pending the finalization of the impairment and classification and measurement requirements within the Financial Instruments - Phase 1 : Classification and Measurement project.

IAS 32 - Financial Instruments - Presentation

IAS 32 is amended to provide clarification on the application of rules to offset financial assets and financial liabilities. The following notions are clarified: legally enforceable right to offset, application of simultaneous realization or settlement, offsetting a guaranteed amount and the unit of accounting for application of the offsetting obligations. Amended IAS 32 is applicable for the periods beginning on, or after January 1, 2014 and must be applied retrospectively.

IAS 36 - Impairment of Assets - Recoverable Amount Disclosures for Non-Financial Assets

IAS 36 is amended to address the disclosure information about the recoverable amount of impaired assets if that amount is based on fair value less cost of disposal. Amended IAS 32 is applicable for the periods beginning on, or after January 1, 2014, with an earlier application permitted.

IFRIC 21 - Levies

IFRIC Interpretation 21 considers how an entity should account for levies imposed by governments, other than income taxes, in its financial statements. IFRIC Interpretation 21 is applicable for the periods beginning on, or after January 1, 2014, with an earlier application permitted.

The Company is currently evaluating the impacts of adopting these standards on its financial statements.

5. EXPENSES BY NATURE

Detail of the depreciation and amortization expenses

The depreciation expense of property, plant and equipment and the amorization expense of intangible assets has been charged to the statement of earnings as follows:

The loss (gain) on disposal of property, plant and equipment is included in cost of contract revenue.

7. LONG-TERM DEBT

	December 31 2013	June 30 2013
	$	$
Loan authorized for a maximum amount of $40 million, bearing interest at prime rate plus 0.5%, effective rate as at December 31, 2013 3.5%, maturing May 2015, secured by first rank hypothec on the universality of all present and future assets (a) (b)	10,198	14,355
Loans, bearing interest at rates ranging from 0% to 1.5%, payable in monthly instalments of $29, maturing in September 2014, secured by certain vehicles of a net book value of $805 as at December 31, 2013 and $912 as at June 30, 2013	228	404
	10,426	14,759
Current portion	(228)	(338)
	10,198	14,421

(a) The rate is variable based on the quarterly calculation of a financial ratio and can vary from prime rate plus 0.5% to 1.50%. As per certain conditions, the credit facility can be increased by an amount of $20 million up to a maximum authorized amount of $60 million.

(b) An unamortized amount of $102 ($144 as at June 30, 2013), representing financing fees, has been presented in deduction of the long-term debt. This amount is being amortized to earnings over the term of the debt, using the effective interest method.

Under the terms of the long-term debt agreement, the Company must satisfy certain restrictive covenants as to minimum financial ratios (Note 8).

On December 31, 2013, the prime rate was 3% (3% as at June 30, 2013).

Principal payments required in each of the two years are as follows:

	$
2014	228
2015	10,300

8. CAPITAL MANAGEMENT

The Company includes shareholders' equity, long-term debt and bank overdraft net of cash in the definition of capital.

Total managed capital was as follows:

	December 31 2013	June 30 2013
	$	$
Long-term debt	10,426	14,759
Share capital	54,411	54,411
Equity settled reserve	4,810	4,480
Retained earnings	28,794	31,327
Cash	(1,594)	(1,507)
	96,847	103,470

The Company's objective when managing its capital structure is to maintain financial flexibility in order to: i) preserve access to capital markets; ii) meet financial obligations and iii) finance internally generated growth and potential new acquisitions. To manage its capital structure, the Company may adjust spending, issue new shares, issue new debt or repay existing debt.

Under the terms of certain of the Company's debt agreements, the Company must satisfy certain financial covenants, such as Senior debt to earnings before income taxes, interest, depreciation and amortization ratio, Senior debt to capitalization ratio and fixed charge coverage ratio. Such agreements also limit, among other things, the Company's ability to incur additional indebtedness, create liens, engage in mergers or acquisitions and make dividend and other payments. As of December 31, 2013 and June 30, 2013, the Company was, and continues to be, in compliance with all covenants and other conditions imposed by its debt agreements.

In order to facilitate the Management of its capital requirements, the Company prepares annual budgets that are updated as necessary, dependent on various factors.

The Company's objectives with regards to capital management remain unchanged from the prior year.

(1) Stock options are not included in the computation of diluted loss per share as their inclusion would be anti-dilutive.

The calculation of the diluted earnings per share for the six-month period ended December 31, 2012 excludes the effect of 2,140,000 options as they are anti-dilutive.

9. SHARE CAPITAL (continued)

All stock options outstanding are granted to directors, officers and employees. Details regarding the stock options outstanding are as follows:

	December 31, 2013 (6 months)	
	Number of options	Weighted average exercise price

12. COMMITMENTS

The Company has entered into operating lease agreements expiring in 2016 which call for lease payments of $219 for the rental of vehicles. The Company has also entered into lease agreements for offices expiring in 2020 for minimum lease payments of $1,248. None of the operating lease agreements contain renewal or purchase options or escalation clauses or any restrictions. The minimum lease payments under lease agreements for the next five years are detailed as follows:

	$
2014	363
2015	232
2016	190
2017	178
2018	178
Subsequent years	326

13. FINANCIAL INSTRUMENTS

The Company is exposed to various risks related to its financial assets and liabilities. There have been no substantive changes in the Company's exposure to financial instrument risks, its objectives, policies and processes for managing those risks, or the methods used to measure them, from previous years, unless otherwise stated in this note.

Currency risk

The Company realizes a part of its activities in US dollars and is thus exposed to foreign exchange fluctuations. The Company does not actively manage this risk. As at December 31, 2013, the Company has cash in US dollars for an amount of $910 (June 30, 2013, $1,098) and accounts receivable in US dollars for an amount of $232 (June 30, 2013, $522).

As at December 31, 2013, the Company has estimated that a 10% increase or decrease of the US exchange rate would have caused a corresponding annual increase or decrease in net earnings and comprehensive earnings of approximately $38 (December 31, 2012, $128).

Credit risk

The Company provides credit to its customers in the normal course of its operations. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults. It carries out, on a continuing basis, credit checks on its customers and maintains provisions for contingent credit losses. Demand for the Company's drilling services depends upon the level of mineral exploration and development activities conducted by mining companies, particularly with respect to gold, nickel and copper.

In order to reduce the credit risk, the Company is using insurance coverage from Export Development Canada («EDC») on certain accounts receivable from its customers. The insurance program provides under certain terms and conditions an insurance coverage amount of up to 90% of unpaid accounts. As at December 31, 2013, the amount of the insurance coverage from EDC represents approximately 24% of the accounts receivable (35% in June 30, 2013).

The carrying amounts for accounts receivable are net of allowances for doubtful accounts, which are estimated based on aging analysis of receivables, past experience, specific risks associated with the customer and other relevant information. The maximum exposure to credit risk is the carrying value of the financial assets.

13. FINANCIAL INSTRUMENTS (continued)

The allowance for doubtful accounts is established based on the Company's best estimate on the recovery of balances for which collection may be uncertain. Uncertainty of collection may become apparent from various indicators, such as a deterioration of the credit situation of a given client or delay in collection when the aging of invoices exceeds the normal payment terms. Management regularly reviews accounts receivable and assesses the appropriateness of the allowance for doubtful accounts.

The change in the allowance for doubtful accounts is detailed below:

	December 31 2013 (3 months)	December 31 2012 (3 months)	December 31 2013 (6 months)	December 31 2012 (6 months)
	$	$	$	$
Balance at beginning of the period	1,229	316	1,239	308
Change in allowance, other than write-offs and recoveries	52	179	88	370
Write-offs of trade receivables	(6)	(1)	(6)	(4)
Recoveries	(54)	(2)	(100)	(182)
Balance at end of the period	1,221	492	1,221	492

As at December 31, 2013, 24% (June 30, 2013: 37%) of the trade accounts receivable are aged as current and 8% are impaired (June 30, 2013: 7%).

One major customer represents more than 14% of the trade accounts receivable as at December 31, 2013 (June 30, 2013, one major customer represents 26% of these accounts).

Three major customers represent 38% of the contract revenue for the three-month period ended December 31, 2013 (three-month period ended December 31, 2012, one major customer represents 10%).

One major customer represent 15% of the contract revenue for the six-month period ended December 31, 2013 (six-month period ended December 31, 2012, one major customer represents 11%).

Credit risk also arises from cash and cash equivalents with banks and financial institutions. This risk is limited because the counterparties are mainly Canadian banks with high credit ratings.

The Company does not enter into derivatives to manage credit risk.

Interest rate risk

The Company is subject to interest rate risk since a significant part of the long-term debt bears interest at variable rates.

As at December 31, 2013, the Company has estimated that a 1% point increase or decrease in interest rates would have caused a corresponding annual increase or decrease in net earnings of approximately $77 (December 31, 2012, $131).

Fair value

The fair value of cash, accounts receivable and accounts payable and accrued liabilities is approximately equal to their carrying values due to their short-term maturity.

The fair value of long-term debt approximates its carrying value as it bears interest at a variable rate and has financing conditions similar to those currently available to the Company. The fair value on the contingent considerations has been evaluated with a discounted rate value.

13. FINANCIAL INSTRUMENTS (continued)

Fair value hierarchy

The methodology used to measure the Company's financial instruments accounted for at fair value is determined based on the following hierarchy:

Level	Basis for determination of fair value
Level 1	Quoted prices in active markets for identical assets or liabilities
Level 2	Inputs other than quoted prices included in Level 1 that are directly or indirectly observable for the asset or liability
Level 3	Inputs for the asset or liability that are not based on observable market data

The fair value hierarchy requires the use of observable market inputs whenever such inputs exist. A financial instrument is classified to the lowest level of the hierarchy for which a significant input has been considered in measuring fair value.

As at December 31, 2013 and June 30, 2013, the contingent considerations, the only financial instruments at fair value, are classified as a Level 3 financial instrument as the fair value is determined using a discounted rate value, between 6.5% and 12%. There is no observable inputs for that financial intrument.

The changes in the contingent considerations are detailed below:

	December 31 2013 (3 months)	December 31 2012 (3 months)	December 31 2013 (6 months)	December 31 2012 (6 months)
	$	$	$	$
Balance at beginning of the period	1,112	4,416	1,096	4,356
Change in fair value of contingent considerations	16	63	32	123
Estimated contingent consideration transfered to accounts payable and accrued liabilities	-	(400)	-	(400)
Reversal of contingent considerations	-	(800)	-	(800)
Balance at end of the period	1,128	3,279	1,128	3,279

Liquidity risk

Liquidity risk arises from the Company's management of working capital, the finance charges and principal repayments on its debt instruments. It is the risk that the Company will not be able to meet its financial obligations as they fall due.

The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. In Note 8 are details of undrawn facilities that the Company has at its disposal to further reduce liquidity risk.

				As at December 31, 2013
	Total	0 -1 year	2 - 3 years	4 - 5 years
	$	$	$	$
Accounts payable and accrued liabilities	7,466	7,466	-	-
Contingent considerations	1,128	1,128	-	-
Long-term debt (capital only)	10,528	228	10,300	-
	19,122	8,822	10,300	-

14. SEGMENTED INFORMATION

The Company is separated into two geographical segments: Canada and International (US, Central and South America and West Africa). The elements of the results and the financial situation are divided between the sectors, based on destination of contracts or profits. Data by geographical areas follow the same accounting rules as those used for the consolidated accounts. Transfers between sectors are carried out at market prices.

Operational sectors are presented using the same criteria as for the production of the internal report to the chief operating decision maker; who allocates the resources and evaluates the performance of the operational sectors. The chief operating decision maker is considered as the President and Chief Executive Officer, who evaluates the performance of both sectors by the revenues of ordinary activities from external clients, gross margin and net earnings.

Data relating to each of the Company's reportable segments is presented as follows:
