INDEPENDENT AUDITORS' REPORT

To the Shareholders of Orbit Garant Drilling Inc.

Opinion

We have audited the consolidated financial statements of Orbit Garant Drilling Inc. (the Entity), which comprise:

- the consolidated statements of financial position as at June 30, 2019 and 2018
- the consolidated statements of (loss) earnings and comprehensive (loss) earnings for the years then ended
- the consolidated statements of changes in equity for the years then ended
- the consolidated statements of cash flows for the years then ended
- and notes to the consolidated financial statements, including a summary of significant accounting policies

(Hereinafter referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the consolidated financial position of the Entity as at June 30, 2019 and 2018, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with International Financial Reporting Standards (IFRS).

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the **"*Auditors' Responsibilities for the Audit of the Financial Statements*"**section of our auditors' report.

We are independent of the Entity in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. Other information comprises:

- the information included in Management's Discussion and Analysis filed with the relevant Canadian Securities Commissions.
- the information, other than the financial statements and the auditors' report thereon, included in a document likely to be entitled "Annual Report".

Our opinion on the financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit and remain alert for indications that the other information appears to be materially misstated.

We obtained the information included in Management's Discussion and Analysis filed with the relevant Canadian Securities Commissions as at the date of this auditors' report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact in the auditors' report.

We have nothing to report in this regard.

The information, other than the financial statements and the auditors' report thereon, included in a document likely to be entitled "Annual Report" is expected to be made available to us after the date of this auditors' report. If, based on the work we will perform on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards (IFRS), and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Entity's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Entity's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

  The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Entity to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

- Provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the group Entity to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

KPMG LLP*

The engagement partner on the audit resulting in this auditors' report is Alain Bessette.

1. DESCRIPTION OF BUSINESS

Orbit Garant Drilling Inc. (the "Company"), amalgamated under the *Canada Business Corporations Act* , mainly operates a surface and underground diamond drilling business. The Company has operations in Canada, United States, Central and South America and West Africa.

The Company's head office is located at 3200, boul. Jean-Jacques Cossette, Val-d'Or (Québec), Canada. The Company holds interests in several entities. The percentage of voting rights in its subsidiaries and its associates is as follows:

	% of voting rights
Orbit Garant Drilling Services Inc.	100%
9116-9300 Québec inc.	100%
Drift Exploration Drilling Inc.	100%
Drift de Mexico SA de CV	100%
Orbit Garant Chile S.A.	100%
Orbit Garant Drilling Ghana Limited	100%
Perforación Orbit Garant Peru S.A.C.	100%
OGD Drilling (Guyana) Inc.	100%
Forage Orbit Garant BF S.A.S.	100%
Orbit Miyuu Kaa Drilling Inc.	49%
Sarliaq-Orbit Garant Inc.	49%
Tumiit Orbit Garant Inc. (since March 6, 2019)	49%

2. BUSINESS COMBINATION

Acquisition of the drilling business of Projet Production International BF S.A.:

On October 11, 2018, the Company acquired the drilling business of Projet Production International BF S.A., based in Burkina Faso for a total purchase price of $8,316 (US$6,400). Through the acquisition, the Company has added 13 surface drills, related support equipment, and existing customer contracts in Burkina Faso. The Company has also retained approximately 100 employees, including experienced drillers and support personnel, who will now be based in Orbit Garant BF S.A.S's offices in Ouagadougou. This acquisition significantly strengthens the presence of the Company in Burkina Faso and the broader West African mineral drilling market, positioning the Company to pursue new growth opportunities.

The Company funded the $8,316 (US$6,400) purchase price through draws on its credit facility and the issuance of common shares of the Company. The cash component of the transaction is $6,684 (US$5,150), with $3,357 (US$2,575) paid on closing, and $3,327 (US$2,575) to be paid 12 months after the closing date. The remaining $1,632 (US$1,250) of the purchase price was satisfied through the issuance of 861,637 common shares at a price of $1.89 per share, from the Company's treasury. The details of the assets acquired amounted approximatly to $2,573 (US$2,000) for inventories, $4,395 (US$3,400) for property, plant and equipment and $1,348 (US$1,000) for intangible assets.

The results of operations of Projet Production International BF S.A. are included in the consolidated financial statements from October 11, 2018.

(in thousands of Canadian dollars, except for data per share and option data)

2. BUSINESS COMBINATION (continued)

The fair value of the net assets acquired are as follows:

	$
Inventories	2,573
Property, plant and equipment	4,395
Intangible assets	1,348
Consideration transferred	8,316
Consideration transferred	
Issuance of common shares	1,632
Cash	3,357
Balance payable related to a business combination	3,327
	8,316

Business combination costs

For the year ended June 30, 2019, business combination costs of $1,108 related to the transaction described above were included in the general and administrative expenses in the consolidated statement of earnings (loss).

Impact of business combination on results

It is impracticable to provide reliable financial information relating to actual and pro forma revenues and profit for the above acquisition since the Company already had operating activities with the same clients and similar contracts as the acquired business. As a result splitting out information for the acquired is impracticable.

3. BASIS OF PREPARATION

Basis of presentation

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standard Board ("IASB"). The IFRS accounting policies set out below were consistently applied to all periods presented.

The preparation of consolidated financial statements in conformity with IFRS requires the use of certain critical accounting estimates, assumptions and judgments. It also requires Management to exercise its judgment in the process of applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant, are disclosed in Note 5.

These consolidated financial statements have been prepared on a historical cost basis except for the investments, which are measured at fair value, and share-based compensation is measured in accordance with IFRS 2, *Share-Based Payment*. They are presented in Canadian dollars, which are the currency of the primary economic environment in which the Company operates ("functional currency"). All values are rounded to the nearest thousand dollars, except where otherwise indicated.

These consolidated financial statements were approved for issue by the Board of Directors of Orbit Garant Drilling Inc. on September 18, 2019.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company. A subsidiary is an entity controlled by the Company. An investor controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee, independently of its percentage of participation. The existence and effect of potential voting rights are considered when the Company controls another entity.

Income and expenses of subsidiaries acquired or disposed of during the year are included in the consolidated statement of earnings from the effective date of acquisition to the effective date of disposal, as appropriate. Intercompany transactions and balances are eliminated on consolidation.

Business combinations

Business combinations are accounted for using the acquisition method. The consideration transferred in a business combination is measured at the fair value which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Company, liabilities incurred by the Company with the former owners of the acquiree and the equity interests issued by the Company in exchange for control of the acquiree. Acquisition-related costs are generally recognized in profit or loss as incurred. This consideration can be comprised of cash, assets transferred, financial instruments issued, liabilities assumed by the Company to the former owner, or future contingent payments. The identifiable assets and liabilities of the business acquired are recognized at fair value at the acquisition date.

Results of operations of a business acquired are included in the Company's consolidated financial statements from the date of the business combination. Business combination and integration costs are expensed as incurred. Non-controlling interests in an entity acquired are presented in the consolidated statement of financial position within equity, separately from the equity attributable to shareholders in the "Equity" section of the consolidated statement of financial position. Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net value of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net value of the acquisition-date amounts of identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the acquirer's previously held securities in the acquiree (if any), the excess is recognized immediately in profit or loss as a bargain purchase gain.

Foreign currency translation

Transactions denominated in a currency other than the functional currency of the Company or of a foreign subsidiary whose functional currency is the Canadian dollar, are accounted for using the exchange rate prevailing on the transaction date. On each reporting date, monetary items denominated in a foreign currency are translated using the exchange rate prevailing on that date, and non-monetary items that are measured at historical cost are not adjusted. Exchange differences are recognized in net earnings in the period during which they occur.

The assets and liabilities of foreign subsidiaries whose functional currency is not the Canadian dollar are translated into Canadian dollars by applying the exchange rate prevailing at the reporting date. Revenue and expense items are translated at the average exchange rate for the period. Exchange differences are recognized in OCI under "Cumulative translation differences" and are accumulated in equity. The accumulated amount of exchange differences is reclassified in net earnings upon disposal or partial disposal of an interest in a foreign operation. Additionally, foreign exchange gains and losses related to certain intercompany loans that are permanent in nature are included in OCI under "Cumulative translation differences" and are accumulated in equity.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments

Financial assets and financial liabilities are initially recognized at fair value and their subsequent measurement is dependent on their classification as described below. Their classification depends on the purpose for which the financial instruments were acquired or issued, their characteristics and the Company's designation of such instruments. Financial instruments are recognized when the Company becomes a party to the contractual provisions of the instrument.

Asset/Liability	Classification
Cash and equivalents	Amortized cost
Trade and other receivables	Amortized cost
Investments	Fair value through profit or loss
Loan receivable	Amortized cost
Trade and other payables	Amortized cost
Balance payable related to a business combination	Amortized cost
Factoring liabilities	Amortized cost
Long-term debt and finance leases	Amortized cost

Financial assets measured at amortized cost

A financial asset is subsequently measured at amortized cost, using the effective interest method and net of any impairment loss, if

(a) The asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and

(b) The contractual terms of the financial asset give rise, on specified dates, to cash flows that are solely payments of principal and/or interest.

Financial assets measured at fair value

These assets are measured at fair value and changes therein, including any interest or dividend income, are recognized in net income. However, for investments in equity instruments that are not held for trading, the Company may elect at initial recognition to present gains and losses in other comprehensive income. For such investments measured at fair value through other comprehensive income, gains and losses are never reclasified to net income, and no impairment is recognized in net income.

Financial liabilities measured at amortized cost

A financial liability is subsequently measured at amortized cost, using the effective interest method.

Financial liabilities measured at fair value

Financial liabilities at fair value are initially recognized at fair value and are remeasured at each reporting date with any changes therein recognized in net income. The Company has no financial liabilities measured at fair value.

The Company derecognizes a financial liability when its contractual obligations are disharges, cancelled or expired.

Financial assets and liabilities are offset and the net amount presented in the consolidated statements of financial position when and only when the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Amortized cost and effective interest method

The effective interest method is a method of calculating the amortized cost of a financial instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash flows (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Cash and cash equivalents

Cash and cash equivalents consist of cash on hand, bank overdraft and short-term deposits with originale maturities of three months or less.

Trade and other receivables

Trade and other receivables consist of amounts due from our normal business activities. An allowance for expected credit losses is maintained to reflect an impairment risk for trade and other receivables based on an expected credit loss model which factors in changes in credit quality since the initial recognition of trade accounts receivable based on customer risk categories. Bad debts are also provided for based on collection history and specific risks identified on a customer-by-customer basis.

Employee Benefits

Employee benefits are all forms of consideration given by an entity in exchange for service rendered by employees or for the termination of employment. Wages, paid leaves, bonuses and non-monetary benefits are short-term employee benefits, and they are recorded in the annual reporting period in which the employees of the Company render the related services.

Inventories

The Company maintains an inventory of operating supplies, motors, drill rods and drill bits. These inventories are valued at the lower of cost and net realizable value. Net realizable value is determined using the estimated selling price less estimated costs to complete the sale. Cost is determined on the first-in, first-out basis. Used and revised inventories are valued at 50% and 75% of original cost, respectively, to approximate net realizable value. The amount of any write-down of inventories can be reversed when the circumstances that led to the write-down charge in the past no longer exist.

Investments

Investments in publicly traded securities are classified as fair value through profit or loss. Fair value through profit or loss investments are recorded at fair value, with changes in fair value recognized in profit or loss.

Investment in an associate

An associate is an entity over which the Company has significant influence. The Company has significant influence when it has the power to participate in the financial and operating policy decisions of the investee, but does not have control or joint control. The Company accounts for its investment in an associate using the equity method. Under the equity method, the investment is initially recognized at cost. Subsequent to initial recognition, distributions received from an associate reduce the carrying amount of the investment. The consolidated statements of comprehensive earnings (loss) include the Company's share of any amounts recognized by its associate in profit or loss and in other comprehensive earnings (loss), if any. Intercompany balances between the Company and its associate are not eliminated.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses. Cost represents the acquisition costs, net of government grants and investment tax credits, or manufacturing costs, including preparation, installation and testing costs. The manufacturing costs for drilling equipment include the material, direct labour and indirect specific costs.

Borrowing costs are also included in the cost of self-constructed property, plant and equipment. Future expenditures, such as maintenance and repairs, are expensed as incurred.

Significant improvements are capitalized and amortized over the useful life of the asset.

Property, plant and equipment are recorded at cost and depreciation is calculated using the straight-line method based on their estimated useful life using the following periods:

	Useful life	Residual value
Buildings and components	5 to 40 years	-
Drilling equipment	5 to 10 years	0 - 20%
Vehicles	5 years	-
Other	3 to 10 years	-

The depreciation is calculated on the cost of an asset less its residual value and begins when the property, plant and equipment are ready for their intended use. Land is not depreciated.

Depreciation methods, residual values and the useful lives of significant property, plant and equipment are reviewed at each financial year-end. Any change is accounted for prospectively as a change in accounting estimate.

Intangible assets

Intangible assets are accounted for at cost. Amortization is based on their estimated useful life using the straight-line method and the following periods:

Customer relationship	3 years

Amortization methods, residual values and the useful lives of significant intangible assets are reviewed at each financial year-end. Any change is accounted for prospectively as a change in accounting estimate.

Impairment of non-financial assets

For the purposes of assessing impairment, assets are grouped in cash-generating units ("CGU"), which represent the lowest levels for which there are separately identifiable cash inflows generated by those assets. The Company reviews, at the end of each reporting period, whether events or circumstances have occurred to indicate that the carrying amounts of its non-financial assets with finite useful lives may be less than their recoverable amounts.

Goodwill, other intangible assets having an indefinite useful life, and intangible assets not yet available for use are tested for impairment on June 30 of each financial year or whenever there is an indication that the carrying amount of the asset, of the CGU to which an asset has been allocated, exceeds its recoverable amount. The recoverable amount is the higher of the fair value, less costs of disposal, and the value in use of the asset or the CGU. Fair value, less costs of disposal, represents the amount an entity could obtain at the valuation date from the asset's disposal in an arm's length transaction between knowledgeable, willing parties, after deducting the costs of disposal. The value in use represents the present value of the future cash flows expected to be derived from the asset or the CGU.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Impairment of non-financial assets (continued)

An impairment loss is recognized in the amount by which the carrying amount of an asset or a CGU exceeds its recoverable amount. When the recoverable amount of a CGU to which goodwill has been allocated is lower than the CGU's carrying amount, the related goodwill is first impaired. Any excess amount of impairment is recognized and attributed to assets in the CGU, prorated to the carrying amount of each asset in the CGU.

An impairment loss recognized in prior periods for non-financial assets with finite useful lives and intangible assets having an indefinite useful life, other than goodwill, can be reversed through the consolidated statement of earnings (loss) to the extent that the carrying amount at the date that the impairment is reversed does not exceed what the amortized cost would have been had the impairment not been recognized.

Income taxes

Current income taxes are recognized with respect to amounts expected to be paid or recovered under the tax rates and laws that have been enacted or substantively enacted at the reporting date.

Deferred income tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the carrying amounts of existing assets and liabilities in the consolidated financial statements and their respective tax bases. Deferred income tax assets and liabilities are measured using enacted or substantively enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. The effect of a change in tax rates on deferred income tax assets and liabilities is recognized in earnings in the period that includes the substantive enactment date. A deferred tax asset is recognized initially when it is probable that future taxable income will be sufficient to use the related tax benefits. A deferred tax expense or benefit is recognized in other comprehensive earnings or otherwise directly in equity to the extent that it relates to items that are recognized in other comprehensive earnings (loss) or directly in equity in the same or a different period.

In the course of the Company's operations, there are a number of uncertain tax positions due to the complexity of certain transactions and due to the fact that related tax interpretations and legislation are continually changing. When a tax position is uncertain, the Company recognizes an income tax benefit or reduces an income tax liability only when it is probable that the tax benefit will be realized in the future or that the income tax liability is no longer probable.

Financing fees

Financing fees related to long-term debt are capitalized in reduction of long-term debt and amortized using the effective interest rate.

Leases

Property, plant and equipment held under a finance lease are initially recognized at the lesser of the fair value of the asset and the present value of the minimum lease payments. The leased item is then recognized in the same manner as other similar assets held by the Company. The related liability payable to the lessor is recorded as a debt resulting from a finance lease and a finance charge is recognized in net earnings for the duration of the lease.

Operating lease payments are recognized in the consolidated statement of earnings (loss) on a straight-line basis over the period of the lease. Any lease incentives are amortized as a reduction lease expense.

Revenue recognition

Revenue from drilling contracts and ancillary services is recognized on the basis of actual metres drilled for each contract, which corresponds to the amount to which the entity has a right to invoice.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Earnings per share

Earnings per share are calculated using the weighted average number of shares outstanding during the year.

Diluted earnings per share are determined as net earnings (loss), divided by the weighted average number of diluted common shares outstanding for the period. Diluted common shares reflect the potential dilutive effect of exercising the share options based on the treasury share method.

Share options

The Company uses the fair value method under IFRS 2 to account for share options. In accordance with this method, compensation cost is measured at the fair value of the option at the grant date using the Black-Scholes option pricing model and is amortized to earnings over the vesting period. The fair value is recognized as an expense with a corresponding increase in equity settled reserve. The amount recognized as an expense is adjusted to reflect the number of share options expected to vest and is net of share options cancelled prior to being vested. When unexercised share options are forfeited or expired, the amounts are transferred to retained earnings.

5. CRITICAL ACCOUNTING ESTIMATES, ASSUMPTIONS AND JUDGMENTS

The preparation of financial statements in accordance with IFRS requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and contingent liabilities on the reporting date, and amounts of revenues and expenses for the relevant period. Although management regularly reviews its estimates, actual results may differ. The impact of changes to accounting estimates is recognized in the period during which the change occurs, and in the affected future periods, when applicable. Areas in which the estimates and assumptions are significant or which are complex, are presented as follows:

A) CRITICAL ACCOUTING ESTIMATES

Inventories

Inventory is measured at the lower of cost and net realizable value. In estimating net realizable values, management takes into account the most reliable evidence available at the time the estimates are made. Net realizable value is determined using the estimated selling price less estimated costs to complete the sale. Used and revised inventories are valued at 50% and 75% of cost, respectively. The amount of the write-down of inventories can be reversed when the circumstances that led to the write-down charge in the past no longer exist.

Business combinations

On initial recognition, the assets and liabilities of the acquired business are included in the consolidated statement of financial position of the Company at their fair values. In measuring fair value, Management uses estimates about future cash flows and discount rates; however, the actual results may vary.

Impairment of non-financial assets

The Company also uses its judgment to determine whether an impairment test must be performed due to the presence of potential impairment indicators. In applying its judgment, the Company relies primarily on its knowledge of its business and the economic environment. As at June 30, 2019, the Company concluded that there were impairment indicators, and it performed an impairment test. No impairment was recognized as a result of this test. Significant management estimates are required to determine the recoverable amount of the cash-generating unit ("CGU") including estimates of fair value of certain assets and selling costs. Differences in estimates could affect whether tangible and intangible assets are in fact impaired and the dollar amount of that impairment. Significant assumptions used by management to determine the fair value of certain assets based on year, model and condition at the date of valuation.

5. CRITICAL ACCOUNTING ESTIMATES, ASSUMPTIONS AND JUDGMENTS (continued)

Income taxes

The Company is subject to income taxes in various jurisdictions. Judgment is required in determining the worldwide provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain. The Company recognizes liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due in the future. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the current and deferred income tax assets and liabilities in the period in which such determination is made. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax assets

The assessment of the probability in which deferred tax assets can be utilized is based on the Company’s latest approved budget forecast, which is adjusted for significant non-taxable income (and expenses) and specific limits to the use of any unused tax loss or credit. The tax rules in the numerous jurisdictions in which the Company operates are also carefully taken into consideration. If a forecast of taxable income indicates the probable use of a deferred tax asset, especially when it can be utilized without a time limit, that deferred tax asset is usually recognized in full. The recognition of deferred tax assets that are subject to certain legal or economic limits or uncertainties is assessed individually by management based on specific facts and circumstances.

B) JUDGMENTS

Functional currency

In determining the functional currency of its foreign subsidiaries, the Company needs to evaluate different factors such as the currency that mainly influences sales prices and costs, the economic environment and the degree of autonomy of the subsidiary. Following the evaluation of the different factors, when the functional currency is not obvious, the Company uses its judgment to determine the functional currency that most faithfully represents the economic effects of the underlying transactions, events and conditions.

6. STANDARDS AND INTERPRETATIONS ADOPTED

The following standards and amendments to existing standards have been adopted by the Company on July 1, 2018:

IFRS 9 – Financial Instruments

IFRS 9 introduces new requirements for the classification and measurement of financial assets. Under IFRS 9, financial assets are classified and measured based on the business model in which they are held and the characteristics of their contractual cash flows. The standard introduces additional changes relating to financial liabilities. It also amends the impairment model by introducing a new "expected credit loss" model for calculating impairment.

The Company has applied IFRS 9 in the current period. The Company has adopted the new standards retrospectively without prior period restatement based on the new classification requirements and the caracteristics of each financial instrument as at July 1, 2018. The following summarizes the classification and measurement changes for the Company's financial assets and financial liabilities as a result of the adoption of IFRS 9:

(in thousands of Canadian dollars, except for data per share and option data)

6. STANDARDS AND INTERPRETATIONS ADOPTED (continued)

IFRS 9 – Financial Instruments (continued)

Asset/Liability	Original classification under IAS 39	New classification under IFRS 9
Cash and equivalents	Loans and receivables	Amortized cost
Trade and other receivables	Loans and receivables	Amortized cost
Investments	Available-for-sale	Fair value through profit or loss
Loan receivable	Loans and receivables	Amortized cost
Trade and other payables	Other liabilities	Amortized cost
Balance payable related to a business combination	Other liabilities	Amortized cost
Factoring liabilities	Other liabilities	Amortized cost
Long-term debt and finance leases	Other liabilities	Amortized cost

The accounting for these instruments and the line item in which they are included in the balance sheet were unaffected by the adoption of IFRS 9 with the exception of the Company's investments, which were reclassified from available-for-sale to financial assets measured at fair value through profit or loss ("FVTPL"). Fair value gains and losses on investments are recognized in general and administrative expenses in net earnings. In accordance with transitional provisions, the Company has reflected the retrospective impact of the adoption of IFRS 9 due to change in classification for investments as an adjustment to opening components of equity as at July 1, 2018.

			July 1, 2018
Equity	As presented	Restatements	As restated
	$	$	$
Retained earnings	20,609	(189)	20,420
Accumulated other comprehensive earnings (loss)	(88)	189	101
Impact on equity	20,521	-	20,521

The adoption of the new expected credit loss model for calculating impairment did not have any meaningful impact on the measurement of financial assets measured at amortised cost.

IFRS 15 – Revenue from Contracts with Customers

The standard contains a single model that applies to contracts with customers and two approaches to recognizing revenue: at a point in time or over time. The model features a contract-based five-step analysis of transactions to determine whether, how much and when revenue is recognized. New estimates and judgmental thresholds have been introduced, which may affect the amount and/or timing of revenue recognized. The new standard applies to contracts with customers. It does not apply to insurance contracts, financial instruments or lease contracts, which fall in the scope of other IFRS. The new standard is effective for annual periods beginning on or after January 1, 2018. IFRS 15 replaces IAS 11, *Construction Contracts* , IAS 18, *Revenue* , IFRIC 13, *Customer Loyalty Programmes* , IFRIC 15, *Agreements for the Construction of Real Estate* , IFRIC 18, *Transfer of Assets from Customers* , and SIC 31, *Revenue – Barter Transactions Involving Advertising Services* .

The Company has applied IFRS 15 in the current period. The Company has adopted IFRS 15 using the cumulative effect method, with the effect of initially applying this standard recognized at the date of initial application (i.e. July 1, 2018). The Company used the practical expedient that allows an entity to recognize revenue in the amount to which it has a right to invoice, since the Company has a right to consideration from a customer in an amount that corresponds directly to the value to the customer of the Company’s performance completed to date. As such, there has been no change in the way the Company recognizes revenue. The adoption of IFRS 15 did not have a material impact on the Company’s consolidated financial statements. The Company believes that the categories used in the Segmented information in Note 22 are the same categories necessary for disaggregation of revenue.

6. STANDARDS AND INTERPRETATIONS ADOPTED (continued)

Classification and Measurement of Share-based Payment Transactions (Amendments to IFRS 2)

The amendments provide requirements on the accounting for (i) the effects of vesting and non-vesting conditions on the measurement of cash-settled share-based payments; (ii) share-based payment transactions with a net settlement feature for withholding tax obligations; and (iii) a modification to the terms and conditions of a share-based payment that changes the classification of the transaction from cash-settled to equity-settled. The amendments apply for annual periods beginning on or after January 1, 2018. As a practical simplification, the amendments can be applied prospectively. The adoption of the Amendments to IFRS 2 did not have an impact on the Company's consolidated statements.

IFRIC Interpretation 22 – Foreign Currency Transaction and Advance Consideration

IFRIC 22 clarifies that the date of the transaction, for the purpose of determining the exchange rate, is the date of initial recognition of the non-monetary prepayment asset and deferred income liability, and that if there are multiple payments or receipt in advance, a date of transaction is established for each payment or receipt. IFRIC Interpretation 22 is effective from the year beginning January 1, 2018. The adoption of IFRIC Interpretation 22 did not have an impact on the Company's consolidated financial statements.

7. RECENT ACCOUNTING PRONOUNCEMENTS

New standards and interpretations not yet adopted:

IFRS 16 – Leases

The new standard is effective for annual periods beginning on or after January 1, 2019. Effective July 1, 2019, the Company will adopt IFRS 16 using the modified retrospective approach, IFRS 16 set out new principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract. The standard provides lessees with a single accounting model for all leases and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying assets is of low value. In particular, lessees will be required to recognize a right-of-use asset representing its right to use the underlying asset and lease liability representing its obligation to make lease payments. Assets and liabilities arising from a lease will be initially measured on a present value basis.

As a result of adopting IFRS 16, the Company will recognize an increase of both assets and liabilities of the consolidated statements of financial position as well as a decrease to operating expenses (for the removal of rent expense for leases), an increase to depreciation, amortization and write-off (due to depreciation of the right-of-use asset) and an increase to finance cost (due to accretion of the lease liability). The Company is still evaluating the impact of the adoption of this standard on its consolidated financial statements.

IFRIC 23 – Uncertainty over Income Tax Treatments

This interpretation provides guidance on the accounting for current and deferred tax liabilities and assets in circumstances in which there is uncertainty over income tax treatments. The interpretation is applicable for annual periods beginning on or after January 1, 2019. Earlier application is permitted. The interpretation requires an entity to (i) contemplate whether uncertain tax treatments should be considered separately, or together as a group, based on which approach provides better predictions of the resolution; (ii) reflect an uncertainty in the amount of income tax payable (recoverable) if it is probable that it will pay (or recover) an amount for the uncertainty; and (iii) measure a tax uncertainty based on the most likely amount or expected value depending on whichever method better predicts the amount payable (recoverable). The Company does not expect IFRIC 23 to have a material impact on the consolidated financial statements.

(in thousands of Canadian dollars, except for data per share and option data)

8. EXPENSES BY NATURE

Detail of the depreciation and amortization expenses

The depreciation expense of property, plant and equipment and the amortization expense of intangible assets have been charged to the consolidated statement of earnings (loss) as follows:

	June 30 2019	June 30 2018
	$	$
Cost of contract revenue	8,785	7,900
General and administrative expenses	1,203	874
Total depreciation and amortization	9,988	8,774

Principal expenses by nature

Cost of contract revenue, general and administrative expenses, foreign exchange loss (gain) and finance costs by nature are as follows:

	June 30 2019	June 30 2018
	$	$
Depreciation and amortization	9,988	8,774
Employee benefits expense	83,397	87,187
Cost of inventories	32,395	37,767
Other expenses	30,850	35,123
Total cost of contract revenue, general and administrative expenses, foreign exchange loss (gain) and finance costs	156,630	168,851
Cost of contract revenue	136,527	151,603
General and administrative expenses, foreign exchange loss (gain) and finance costs	20,103	17,248
Total cost of contract revenue, general and administrative expenses, foreign exchange loss (gain) and finance costs	156,630	168,851

(in thousands of Canadian dollars, except for data per share and option data)

9. INVENTORIES

	June 30 2019	June 30 2018
	$	$
Spare parts, net	14,718	13,067
Consumables, net	27,334	25,000
Other	1,891	1,352
	43,943	39,419

Spare parts mainly include motors and machine parts. Consumables mainly include limited life tools, rods, hammers, wire lines and casings.

The cost of inventories recognized as an expense and included in cost of contract revenue has been recorded as follows:

	June 30 2019	June 30 2018
	$	$
	32,395	37,767

During the year, an amount of $397 (2018: $604) has been accounted for as a write-down of inventories as a result of net realizable value being lower than cost. As at June 30, 2019 and 2018, no amount has been accounted as a reversal of a write-down of inventory.

The Company's credit facilities are in part secured by a general assignment of the Company's inventories.

10. INVESTMENTS

	June 30 2019	June 30 2018
	$	$
Investments in public companies, beginning of the year	542	682
Acquisition of investments	-	90
Conversion of trade receivables	61	-
Proceeds from disposal of investments	-	(30)
Change in fair value of available-for-sale investments	-	(200)
Change in fair value of investments measured at fair value through profit or loss	(184)	-
Investments in public companies, end of the year	419	542

The Company holds common shares in publicly traded companies. These shares are classified as fair value through profit or loss and are reported at fair value, reflecting their quoted share price at the reporting date. The original cost is $486 ($425 as at June 30, 2018). There is no gain on disposal of investments for the year ended June 30, 2019. For the year ended June 30, 2018, the gain on disposal of investments totalling $18 is included in general and administrative expenses.

(in thousands of Canadian dollars, except for data per share and option data)

11. PROPERTY, PLANT AND EQUIPMENT

	Land	Buildings and components	Drilling equipment	Vehicles	Other	Total
Cost	$	$	$	$	$	$

13. LONG-TERM DEBT AND FINANCE LEASES

	June 30 2019	June 30 2018
	$	$
Loan authorized for a maximum amount of $35,000 ($30,000 before December 12, 2018), bearing interest at prime rate plus 2.00%, effective rate as at June 30, 2019 of 5.95% (June 30, 2018: interest at prime rate plus 2.00%, effective rate of 5.45%), maturing in November 2021, secured by a first rank hypothec on the universality of all present and future assets [(a) (b) (c)]	25,041	17,954
Loan authorized for an amount of $2,500, bearing interest at prime rate plus 4.50%, effective rate as at June 30, 2019 of 8.45% (June 30, 2018: bearing interest at prime rate plus 4.50%, effective rate of 7.95%), payable in monthly instalments of $52 as from June 2017, maturing in May 2021, secured by a second rank hypothec on the universality of all present and future assets [(b)]	1,192	1,813
Loan authorized for an amount of $6,740 (US$5,150), bearing interest at prime rate plus 2.75%, effective rate as at June 30, 2019 of 8.25%, payable in monthly instalments of $59 (US$45) as from May 2019, maturing in January 2024, secured by a third rank hypothec on the universality of all present and future assets [(d)]	3,192	-
Finance leases, bearing interest between 4.50% and 5.99% (June 30, 2018: 3.34% and 5.99%), maturing in July 2021	151	271
	29,576	20,038
Current portion	(1,400)	(812)
	28,176	19,226

13. LONG-TERM DEBT AND FINANCE LEASES (continued)

(a) The rate is variable based on the quarterly calculation of a financial ratio and can vary from prime rate plus 0.50% to 2.25%.

(b) An unamortized amount of $286 ($178 as at June 30, 2018), representing financing fees, has been netted against the long-term debt. This amount is being amortized to earnings over the term of the debt, using the effective interest method.

(c) On June 28, 2019, the Company signed an amendment to the Third Amended and Restated Credit Agreement with National Bank of Canada, consisting of a revolving credit facility in the amount of $35,000 along with a revolving credit facility in an unused amount of US$5,000 as at June 30, 2019, that will expire November 2, 2021.

(d) On December 20, 2018, the Company entered into a loan agreement for a term loan in a principal amount of up to US$5,150. The initial drawdown of US$2,575 received on January 21, 2019 was used to reduce the credit facility described above.

Under the terms of the long-term debt agreements, the Company must satisfy certain restrictive covenants as to minimum financial ratios (Note 14). As at June 30, 2019, the Company was compliant with its financial covenants (June 30, 2018: the Company was compliant with its financial covenants).

As at June 30, 2019, the prime rate in Canada was 3.95% for Canadian loans (3.45% as at June 30, 2018) and the prime rate in United States was 5.50% for US loans (5.50% as at June 30, 2018).

As at June 30, 2019, principal payments required in the next years are as follows:

	Loan	Finance lease	Total
	$	$	$
Within one year	1,347	53	1,400
Later than one year and not later than five years	28,364	98	28,462
	29,711	151	29,862

Minimum lease payments are as follows:

	Minimum lease payments	Present value of minimum lease payments	
		June 30 2019	June 30 2018
	$	$	$
Within one year	56	53	187
Later than one year and not later than five years	99	98	84
	155	151	271
Less: future finance charges	(4)	-	-
Present value of minimum lease payments	151	151	271

Long-term debt and finance leases by currency and by term are as follows:

As at June 30, 2019 $000s	Total	Within one year	Later than one but not later than five years
	$	$	$
CAN	26,371	665	25,706
US (US$2,439)	3,192	722	2,470

13. LONG-TERM DEBT AND FINANCE LEASES (continued)

Reconciliation of movements of long-terme debt and finance leases to cash flows arising from financing activities:

	2019	2018
	$	$
Balance on July 1	20,038	16,988
Net increase in the revolving credit facility	7,200	4,522
Increase in other long-term debts and finance leases	7,506	1,635
Repayment of other long-term debt and finance leases	(5,051)	(2,971)
Amortization of transaction costs related to loans	95	73
Transaction costs related to loans	(203)	(209)
Impact of the change in foreign exchange rates on the US dollar debt	(9)	-
Balance on June 30	29,576	20,038

14. CAPITAL MANAGEMENT

The Company includes long-term debt and finance leases, balance payable related to a business combination, share capital, equity settled reserve, retained earnings, accumulated other comprehensive loss and cash and equivalents in its definition of capital.

The Company's capital structure is as follows:

	June 30 2019	June 30 2018
	$	$
Long-term debt and finance leases	29,576	20,038
Balance payable related to a business combination	3,370	-
Share capital	58,857	57,207
Equity settled reserve	1,486	1,208
Retained earnings	16,971	20,609
Accumulated other comprehensive loss	(738)	(88)
Cash and equivalents	(2,480)	(4,633)
	107,042	94,341

The Company's objective when managing its capital structure is to maintain financial flexibility in order to i) preserve access to capital markets; ii) meet financial obligations; and iii) finance internally generated growth and potential new acquisitions. To manage its capital structure, the Company may adjust spending, issue new shares, issue new debt or repay existing debts.

Under the terms of certain of the Company's debt agreements, the Company must satisfy certain financial covenants, such as Senior debt to earnings before income taxes, interest, depreciation and amortization ratio, Senior debt to capitalization ratio and fixed charge coverage ratio. Such agreements also limit, among other things, the Company's ability to incur additional indebtedness, create liens, engage in mergers or acquisitions and make dividend and other payments. As at June 30, 2019, as mentioned in Note 13, the Company complied with its covenants (June 30, 2018: the Company was compliant with its financial covenants).

In order to facilitate the management of its capital requirements, the Company prepares annual budgets that are updated as necessary, dependent on various factors.

The Company's objectives with regards to capital management remain unchanged from the prior year.

(in thousands of Canadian dollars, except for data per share and option data)

15. SHARE CAPITAL

Authorized, an unlimited number of common and preferred shares:

Common shares, participating and voting, without nominal or par value

Preferred shares rights privileges, restrictions and conditions must be adopted before their issuance by a resolution of the Board of Directors of the Company.

Common shares	June 30, 2019 Number of shares	$	June 30, 2018 Number of shares	$
Balance, beginning of the year	36,147,119	57,207	36,094,919	57,130
Shares issued:				
Business combination (Note 2)	861,637	1,632	-	-
For share options exercised	13,000	18	52,200	77
Balance, end of the year	37,021,756	58,857	36,147,119	57,207

Net earnings (loss) per share

Diluted net earnings (loss) per common share were calculated based on net earnings (loss) divided by the average number of common shares outstanding using the treasury shares method. For 2019, share options are not included in the computation of diluted net loss per share as their inclusion would be anti-dilutive.

Net earnings (loss) per share - basic		June 30 2019		June 30 2018
Net earnings (loss) attributable to common shareholders	$	(3,470)	$	4,484
Weighted average basic number of common shares outstanding		36,768,700		36,121,152
Net earnings (loss) per share - basic	$	(0.09)	$	0.12

Net earnings (loss) per share - diluted		June 30 2019		June 30 2018
		$		$
Net earnings (loss) attributable to common shareholders	$	(3,470)	$	4,484
Weighted average basic number of common shares outstanding		36,768,700		36,121,152
Adjustment to average number of common shares - share options		-		720,732
Weighted average diluted number of common shares outstanding		36,768,700		36,841,884
Net earnings (loss) per share - diluted	$	(0.09)	$	0.12

(in thousands of Canadian dollars, except for data per share and option data)

15. SHARE CAPITAL (continued)

2008 share option plan

On June 26, 2008, the Company established an equity settled option plan (the 2008 Share Option Plan), which is intended to aid in attracting, retaining and motivating the Company's officers, employees, directors and consultants. The option plan has been prepared in accordance with the TSX's policies on listed company security-based compensation arrangements. Persons eligible to be granted options under the option plan are: any director, officer or employee of Orbit Garant or of any subsidiary company controlled by any such person or a family trust of which at least one trustee is any such person and all of the beneficiaries of which are such person and his or her spouse or children.

The aggregate number of common shares which may be issued from treasury upon the exercise of options under the 2008 Share Option Plan shall not exceed 10% of the issued and outstanding common shares. The number of common shares which may be reserved for issuance pursuant to options granted under the option plan, together with common shares reserved for issuance from treasury under any other employee-related plan of the Company, or options for services granted by the Company to any one person, shall not exceed 5% of the then aggregate issued and outstanding common shares.

The Board of Directors, through the recommendation of the Corporate Governance and Compensation Committee, manages the 2008 Share Option Plan and determines, among other things, optionees, vesting periods, exercise price and other attributes of the options, in each case pursuant to the 2008 Share Option Plan, applicable securities legislation and the rules of the TSX. Options vest at a rate ranging from 20% to 33% per annum commencing 12 months after the date of grant and expire no later than 7 years after the grant date. Options are forfeited when the option holder ceases to be a director, officer or employee of the Company. The exercise price for any option may not be less than the fair market value (the closing price of the common shares on the TSX on the last trading day on which common shares traded prior to such day, or the average of the closing bid and ask prices over the last five trading days, if no trades accrued over that period) of the common shares at the time of the grant of the option.

All share options outstanding are granted to directors, officers and employees. Details regarding the share options outstanding are as follows:

	June 30, 2019		June 30, 2018	
	Number of options	Weighted average exercise price	Number of options	Weighted average exercise price
		$		$
Outstanding at the beginning of the year	2,496,500	1.48	2,336,500	1.35
Granted during the year	500,000	1.73	490,000	2.10
Exercised during the year [(a)]	(13,000)	0.95	(52,200)	1.03
Cancelled during the year	(23,000)	1.96	(277,800)	1.59
Outstanding at end of the year	2,960,500	1.52	2,496,500	1.48
Exercisable at end of the year	1,610,768	1.43	1,150,900	1.43

[(a)] For the year ended June 30, 2019, the weighted average share price at the date of exercise was $1.30 (for the year ended June 30, 2018: $2.11).

On December 5, 2018, 500,000 share options have been granted to employees and directors giving the option to purchase a common share for an exercice price of $1.73 per share which represents the fair value of a common share at the date of the grant. These options have a life of 5 years and will vest at a rate of 33% per annum commencing 12 months after the date of the grant.

(in thousands of Canadian dollars, except for data per share and option data)

15. SHARE CAPITAL (continued)

The following table summarizes information on share options outstanding as at June 30, 2019:

Range of exercise price $	Outstanding at June 30, 2019	Weighted average remaining life (years)	Weighted average exercise price $	Exercisable at June 30, 2019	Weighted average exercise price $
0.50 - 1.49	1,191,500	2.60	0.87	927,100	0.91
1.50 - 2.49	1,766,500	3.34	1.95	681,168	2.11
3.50 - 4.49	2,500	0.37	4.00	2,500	4.00
	2,960,500			1,610,768	

The Company's calculations of the fair value of options granted were made using the Black-Scholes option-pricing model. The following table summarizes the grant date fair value calculations with weighted average assumptions:

	Granted in December 2018	Granted in December 2017
Risk-free interest rate	2.41%	1.62%
Expected life (years)	3	3
Expected volatility (based on historical volatility)	39.77%	40.07%
Expected dividend yield	0%	0%
Fair value of options granted	$0.55	$0.66

During the years mentioned below, the total expense related to share-based compensation to employees and directors has been recorded and presented in general and administrative expenses as follows:

	June 30 2019	June 30 2018
	$	$
Expense related to share-based compensation	305	271

16. INCOME TAXES

Income tax expense recovery comprises the following:

	June 30 2019	June 30 2018
Current tax	$	$
Current year	1,623	178
Prior years adjustments	(65)	(190)
	1,558	(12)
Deferred tax		
Current year	(1,891)	(236)
Prior years adjustements	(13)	(3)
	(1,904)	(239)
	(346)	(251)

(in thousands of Canadian dollars, except for data per share and option data)

16. INCOME TAXES (continued)

The tax rates prescribed by the applicable laws were at 26.65% in 2019 and at 26.75% in 2018.

	June 30 2019	June 30 2018
	$	$
Earnings (loss) before income taxes	(3,816)	4,233
Statutory rates	26.65%	26.75%
Income taxes based on statutory rates	(1,017)	1,132
Increase (decrease) of income taxes due to the following:		
Non-deductible expenses	46	225
Non-deductible share-based compensation expense	81	73
Difference of income tax rates between territories	29	21
Effect of corporate tax rates modification	-	(19)
Withholdings taxes	352	175
Income tax assets unrecognized	250	(1,599)
Non-taxable portion of capital gain	-	(1)
Prior years adjustments	(78)	(193)
Other	(9)	(65)
Total income tax recovery	(346)	(251)

Deferred income taxes are based on differences between the accounting and tax values of assets and liabilities and consist of the following at the dates presented:

	July 1 2018	Recognized in statement of earnings (loss)	Other	June 30 2019
	$	$	$	$
Deferred income tax assets:				
Intangible assets	131	(92)	-	39
Loss carried forward	4,140	2,161	-	6,301
Non-deductible provisions	982	(41)	-	941
Total deferred income tax assets	5,253	2,028	-	7,281
Deferred income tax liabilities:				
Investments	6	(6)	-	-
Property, plant and equipment	1,354	144	-	1,498
Total deferred income tax liabilities	1,360	138	-	1,498
Net deferred income tax assets	3,893	1,890	-	5,783

(in thousands of Canadian dollars, except for data per share and option data)

16. INCOME TAXES (continued)

	July 1 2017	Recognized in statement of earnings (loss)	Other	June 30 2018
	$	$	$	$
Deferred income tax assets:				
Intangible assets	50	81	-	131

Total deferred income tax liabilities	1,148	230	(18)	1,360
Net deferred income tax assets	3,636	239	18	3,893

As presented in the consolidated statements of financial position:

	June 30 2019	June 30 2018
	$	$
Deferred tax assets	5,783	4,010
Deferred tax liabilities	-	(117)
	5,783	3,893

Tax losses for which no deferred tax assets were recognized expire as follows:

	Burkina Faso
	$
June 30, 2024	606,000

17. ADDITIONAL INFORMATION RELATING TO THE STATEMENTS OF CASH FLOWS

Changes in non-cash operating working capital items:

	June 30 2019	June 30 2018
	$	$
Trade and other receivables	(4,214)	(8,329)
Inventories	(1,951)	(694)
Prepaid expenses	(270)	(126)
Trade and other payables	539	5,266
	(5,896)	(3,883)

(in thousands of Canadian dollars, except for data per share and option data)

18. COMMITMENTS AND GUARANTEES

Commitments

The Company has entered into operating lease agreements expiring in 2020 which call for lease payments of $16 for the rental of vehicles. The Company has also entered into lease agreements for offices expiring between 2020 and 2029 for minimum lease payments of $2,421. None of the operating lease agreements contain renewal or purchase options or escalation clauses or any restrictions. The minimum lease payments under these lease agreements for the next five and subsequent years are detailed as follows:

	$
2020	712
2021	420
2022	230
2023	185
2024	165
Subsequent years	725

Lease payments recognized as an expense during the year amount to $6,490 (year ended June 30, 2018: $8,837). This amount consists of minimum lease payments. No sublease payments or contingent rent payments were made or received. No sublease income is expected as all assets held under lease agreements are used exclusively by the Company.

Guarantees

As at June 30, 2019, the Company issued some bank guarantees in favor of customers for a total amount of $1,734 (year ended June 30, 2018: $1,090), maturing between August 2019 and March 2020. For the year ended June 30, 2019, the Company has not made any payments in connection with these guarantees.

19. RELATED AND ASSOCIATE PARTY TRANSACTIONS

Transactions with related parties

The Company is related to Dynamitage Castonguay Ltd., a company in which a director has an interest.

On February 28, 2017, the Company granted a loan maturing not later than February 28, 2019, for the amount of $1,237 to the President and Chief Executive Officer in connection with the exercise of his options to purchase 942,000 shares of Orbit Garant Drilling Inc. The loan bore interest at the rate of 4% annually and was secured by a pledge of shares and a guarantee from 6705570 Canada Inc. On December 15, 2017, the President and Chief Executive Officer repaid an amount of $628 and on December 19, 2018, he repaid the balance of the loan and accrued interest for an amount of $675.

During the years ended June 30, 2019 and 2018, the Company entered into the following transactions with its related companies and with persons related to directors:

	June 30 2019	June 30 2018
	$	$
Revenues	266	283
Expenses	151	131

As at June 30, 2019, an amount of $59 was receivable resulting from these transactions (June 30, 2018: $769).

19. RELATED AND ASSOCIATE PARTY TRANSACTIONS (continued)

Transactions with associate parties

During the years ended June 30, 2019 and 2018, the Company entered into the following transactions with its associate parties:

	June 30 2019	June 30 2018
	$	$
Revenues	22,645	9,099

As at June 30, 2019, trade and other receivables included an amount receivable of $1,672 from one of the Company's associates (June 30, 2018: $1,454).

All of these related and associate parties transactions made in the normal course of business were measured at the exchange amount, which is the amount established and agreed to by the parties.

20. KEY MANAGEMENT COMPENSATION

The compensation recognized for key management remuneration and director's fees is analyzed as follows:

	June 30 2019	June 30 2018
	$	$
Salaries and fees	1,877	1,734
Share-based compensation	200	236
	2,077	1,970

21. FINANCIAL INSTRUMENTS

The Company is exposed to various risks related to its financial assets and liabilities. There have been no substantive changes in the Company's exposure to financial instrument risks, its objectives, policies and processes for managing those risks, or the methods used to measure them, from previous years, unless otherwise stated in this note.

Currency risk

The Company realizes a part of its activities in US dollars (US $), in Chiliean Pesos (CLP), in Ghanian cedi (GHS cedi) and in West African Francs (XOF). The Company's exposure to currency risk on its consolidated financial statements was as follows as at June 30, 2019:

	US $	CLP	GHS cedi	XOF
	$000s	$000s	000s	000s
Cash and equivalents	880	197,344	130	223,581
Trade receivables	1,777	2,961,014	8,420	2,180,876
Income tax receivable (payable)	72	(107,842)	2,496	(95,252)
Accounts payable and accrued liabilities	(106)	(299,847)	(946)	(1,572,268)
Current portion of long-term debt and finance leases	(542)	-	-	-
Net balance exposure	2,081	2,750,669	10,100	736,937
Equivalent in Canadian dollars	2,725	5,309	2,425	1,671

21. FINANCIAL INSTRUMENTS (continued)

Currency risk (continued)

The Company has estimated that a 10% increase or decrease in the foreign exchange rates would have caused a corresponding annual increase or decrease in net earnings (loss) and comprehensive earnings (loss) of:

	US $	CLP	GHS cedi	XOF
Increase in net income in Canadian dollars	199	388	177	122

The Company's exposure to currency risk on its consolidated financial statements was as follows as at June 30, 2018:

	US $	CLP	GHS cedi	XOF
	$000s	$000s	000s	000s
Cash and equivalents	522	832,880	625	137,871
Trade receivables	1,258	2,907,515	4,550	608,227
Income tax receivable	67	215,194	809	25,877
Accounts payable and accrued liabilities	(78)	(568,563)	(45)	(115,076)
Net balance exposure	1,769	3,387,026	5,939	656,899
Equivalent in Canadian dollars	2,329	6,794	1,628	1,556

The Company has estimated that a 10% increase or decrease in the above foreign exchange rates would have caused a corresponding annual increase or decrease in net earnings (loss) and comprehensive earnings (loss) of:

	US $	CLP	GHS cedi	XOF
Increase in net income in Canadian dollars	170	465	103	109

Credit risk

The Company provides credit to its customers in the normal course of its operations. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults. It carries out, on a continuing basis, credit checks on its customers and maintains provisions for contingent credit losses. Demand for the Company’s drilling services depends upon the level of mineral exploration and development activities conducted by mining companies, particularly with respect to gold, nickel and copper.

In order to reduce the credit risk, the Company is using insurance coverage from Export Development Canada ("EDC") on certain accounts receivable from its customers. The insurance program provides under certain terms and conditions an insurance coverage amount of up to 90% of certain accounts receivable. As at June 30, 2019, the amount of the insurance coverage from EDC represents 7% of the accounts receivable (5% as at June 30, 2018).

The carrying amounts for accounts receivable are net of allowances for doubtful accounts, which are estimated based on aging analysis of receivables, past experience, specific risks associated with the customer and other relevant information. The maximum exposure to credit risk is the carrying value of the financial assets.

The allowance for doubtful accounts is established based on the Company's best estimate on the recovery of balances for which collection may be uncertain. Uncertainty of collection may become apparent from various indicators, such as a deterioration of the credit situation of a given client or delay in collection when the aging of invoices exceeds the normal payment terms. Management regularly reviews accounts receivable and assesses the appropriateness of the allowance for doubtful accounts.

(in thousands of Canadian dollars, except for data per share and option data)

21. FINANCIAL INSTRUMENTS (continued)

Credit risk (continued)

The aging of trade receivable balances and the allowance for doubtful accounts as at June 30, 2019 and June 30, 2018 were as follows:

	June 30 2019	June 30 2018
	$	$
Current	28,923	24,701
Past due 0-30 days	3,346	3,454
Past due more than 30 days	4,303	3,798
Total trade receivables	36,572	31,953
Less: allowance for doubtful accounts	899	727
	35,673	31,226

The change in the allowance for doubtful accounts is detailed below:

	June 30 2019	June 30 2018
	$	$
Balance at beginning of year	727	525
Change in allowance, other than write-offs and recoveries	269	240
Write-offs of accounts receivable	(150)	-
Recoveries	53	(38)
Balance at end of year	899	727

As at June 30, 2019, 79% (June 30, 2018: 77%) of the trade and other receivables are aged as current and 2% are impaired (June 30, 2018: 2%).

One major customer represents 15% of the trade accounts receivable as at June 30, 2019 (June 30, 2018, one major customer represents 20% of these accounts).

Two major customers represent 31% of the contract revenue for the year ended June 30, 2019 (year ended June 30, 2018, two major customers represent 28%).

Credit risk also arises from cash and cash equivalents with banks and financial institutions. This risk is limited because the counterparties are mainly Canadian banks with high credit ratings. The risk is limited for the loan receivable because it is secured by a pledge of Company's shares.

The Company does not enter into derivatives to manage credit risk.

Interest rate risk

The Company is subject to interest rate risk since a significant part of the long-term debt bears interest at variable rates.

As at June 30, 2019, the Company has estimated that a 100 basis point increase or decrease in interest rates would have caused a corresponding annual increase or decrease in net earnings (loss) and comprehensive earnings (loss) of $217 (June 30, 2018, $146).

Equity market risk

Equity market risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. The Company closely monitors the general trends in the markets and individual equity movements, and determines the appropriate course of actions to be taken by the Company.

(in thousands of Canadian dollars, except for data per share and option data)

21. FINANCIAL INSTRUMENTS (continued)

Fair value

The fair value of cash and equivalents, trade and other receivables, trade and other payables and balance payable related to a business combination is approximately equal to their carrying values due to their short-term maturity.

The fair value of long-term debt approximates its carrying value as it bears interest at a variable rate and has financing conditions similar to those currently available to the Company.

Fair value hierarchy

The methodology used to measure the Company's financial instruments accounted for at fair value is determined based on the following hierarchy:

Level	Basis for determination of fair value
Level 1	Quoted prices in active markets for identical assets or liabilities.
Level 2	Inputs other than quoted prices included in Level 1 that are directly or indirectly observable for the asset or liability.
Level 3	Inputs for the asset or liability that are not based on observable

The fair value hierarchy requires the use of observable market inputs whenever such inputs exist. A financial instrument is classified to the lowest level of the hierarchy for which a significant input has been considered in measuring fair value.

As at June 30, 2019, the investments are measured at fair value and are classified as a Level 1 financial instrument as the fair value is determined using quoted prices in the active markets.

As at June 30, 2019	Carrying value	Fair value	Level 1	Level 2	Level 3
	$	$	$	$	$
Financial assets measured at amortized cost					
Cash and cash equivalents	2,480				
Trade and other receivables	36,643				
Financial assets measured at fair value					
Investments	419	419	419		
Financial liabilities measured at amortized cost					
Trade and other payables	24,744				
Balance payable related to a business combination	3,370				
Long-term debt and finance leases	29,576				

As at June 30, 2018	Carrying value	Fair value	Level 1	Level 2	Level 3
	$	$	$	$	$
Financial assets measured at amortized cost					
Cash and cash equivalents	4,633				
Trade and other receivables	32,503				
Financial assets measured at fair value					
Investments	542	542	542		
Financial liabilities measured at amortized cost					
Trade and other payables	24,247				
Long-term debt and finance leases	20,038				

There were no transfers of amounts between Level 1, Level 2 and Level 3 financial instruments for the year ended June 30, 2019.

(in thousands of Canadian dollars, except for data per share and option data)

21. FINANCIAL INSTRUMENTS (continued)

Liquidity risk

Liquidity risk arises from the Company's management of working capital, the finance costs and principal repayments on its debt instruments. It is the risk that the Company will not be able to meet its financial obligations as they fall due.

The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. In Note 13 are details of undrawn facilities that the Company has at its disposal to further reduce liquidity risk.

The Company enters into receivable purchase agreements (commonly referred to as "factoring agreements") with different banks as part of its normal working capital financing. The Company receives 100% of the value of the specific sales invoice less a charge between 0.46% and 0.52%. As at June 30, 2019 and 2018, there were no amounts included in the trade receivables related to factored accounts.

The following tables present the contractual cash flows for the financial liabilities based on their remaining contractual maturities:

				As at June 30, 2019
	Total	0 - 1 year	2 - 3 years	4 - 5 years
	$	$	$	$
Trade and other payables	24,744	24,744	-	-
Balance payable related to a business combination	3,370	3,370	-	-
Long-term debt	29,711	1,347	27,340	1,024
Finance lease	151	53	98	-
	57,976	29,514	27,438	1,024

				As at June 30, 2018
	Total	0 - 1 year	2 - 3 years	4 - 5 years
	$	$	$	$
Trade and other payables	24,247	24,247	-	-
Long-term debt	19,945	625	19,320	-
Finance lease	271	187	84	-
	44,463	25,059	19,404	-

22. SEGMENTED INFORMATION

The Company is separated into two geographical reportable segments: Canada and International (US, Central and South America and West Africa). The elements of the results and the financial situation are divided between the segments, based on destination of contracts or profits. Data by geographical areas follow the same accounting rules as those used for the consolidated accounts. Transfers between segments are carried out at market prices.

Operational sectors are presented using the same criteria as for the production of the internal report to the chief operating decision maker, who allocates the resources and evaluates the performance of the operational sectors. The chief operating decision maker is considered to be the President and Chief Executive Officer, who evaluates the performance of both segments by the revenues of ordinary activities from external clients and earnings (loss) from operations.

(in thousands of Canadian dollars, except for data per share and option data)

22. SEGMENTED INFORMATION (continued)

Data relating to each of the Company's reportable operating segments are presented as follows:

	June 30 2019	June 30 2018
